Installation example (A = antenna)

For recess mounting in 35/40 mm cup drilling, mount antenna as close as possible to the front.

Note

Reader range:
Approx. 25 mm with FT 200 and FAN 200 antenna (key fob).
The range may be smaller due to environmental reasons, for example if metal materials or magnetic fields (power supply line) are in the near proximity.
The FAN 200 antenna must not be installed behind or on metal surfaces or behind mirrors.

- The antenna can be connected directly to the output port of the FT 200 furniture terminal.
- The FAN 200 antenna is not suitable for installation in metal or metal coated furniture.
- When installing 2 antennas, the distance between the antennas must be at least 250 mm.
